

Presentation Guidelines for Guests

Welcome. This document outlines in a clear and linear way how your personal gallery will be structured on our website and the reasons behind our editorial and security policies.

1. VISUAL LAYOUT & HOVER EFFECT (ROLLHOVER)

The gallery is designed as a clean, essential art exhibition, fully focused on the value of the images. The presentation features two dynamic visual states:

- **Rollhover Effect:** By default, your **First Name & Last Name** will be displayed above the photographic grid. Upon hovering the cursor (or tapping on tablets and smartphones), the text will dynamically shift to show your **Project Title**.
- **Required Number of Photos:** In order to harmoniously fill the display grid layout which spans across two neat rows, you must provide a **minimum of 7 and a maximum of 12 photos**.

2. RULES FOR EXTERNAL HYPERLINKS (LINKS)

To preserve the portfolio's aesthetics and safeguard your privacy, we enforce strict criteria regarding links:

- **Secure HTTPS Websites Only:** A single direct link to your personal website or portfolio will be placed below the grid, provided it is secured with an SSL certificate (`https://`). Unsecure links are blocked by modern browsers and undermine the site's integrity.

- **Why we say NO to personal emails and Social channels:** We do not publish email addresses or social media profiles. This prevents automated web crawlers (bots) from harvesting your data, protecting you from spam or phishing, and keeps the focus entirely on your institutional fine art.

3. ARTWORK PROTECTION & VISIBILITY

- **Download Protection:** To the extent technically permitted by web standards, the site implements measures to disable right-clicking and direct saving, hindering unauthorized image harvesting.
- **Public Access:** Although this onboarding area is private and password-protected, once completed and approved, your gallery will be **visible to any user visiting the website**.
- **Navigation Path:** The public will find your work by following this specific menu structure:

Alia > Hospites > [Your Name] > [Your Gallery]

Technical Note: For specific file formatting rules (pixels, DPI resolution, and image compression), please download and refer to the technical specifications document available in the Reserved Area.
